D. I understand what you're saying

Read the following passage, and mark the letter A, B, C, or D on your answer sheet to indicate the correct word(s) for each of the numbered blanks from 3 to 7.

How much homework students should get has long been a source of debate among parents and educators. In recent years, some countries have even (3) _____ no-homework policies, as students juggle sports, music and other activities after school.

Parents of elementary school students, in (4) _____, have argued that after-school hours should be spent with family or playing outside rather than completing assignments. And there is little research to show that homework improves academic achievement for elementary students.

But some experts say there's value in homework, even for younger students. When done well, it can help students practice core concepts and develop study habits and time (5) _____ skills. The key to effective homework, they say, is keeping assignments related to classroom learning, and tailoring the amount by time (6) _____ age: Many experts suggest no homework for kindergartners, and little to none in first and second grade.

Homework provides a chance to solidify what is being taught in the classroom that day, week or unit. Practice matters. Homework is also the place where schools and families most frequently intersect. "The children are bringing things from the school into the home," says an educator. "Before the pandemic, homework was the only real sense that parents had to time (7) _____ was going on in schools. Every child should be doing homework, but the amount and type that they're doing should be appropriate for their developmental level," she says.

Question 3: A. done with

B. taken in

C. got over

D. carried out

Question 4: A. particular

B. distinctive

C. unique

D. special

Question 5: A. spending

B. consumption

C. wasting

D. management

Question 6: A. the

B. Ø

C. an

D. some

Question 7: A. why

B. when

C. what

D. which

Mark the letter A, B, C, or D on your answer sheet to indicate the word(s) CLOSEST in meaning to the underlined word(s) in each of the following questions.

Question 8: A family can be two or more people who share goals and values and have long-term commitments to one another.

- A. contributions B. generations C. partnerships D. agreements

- A B C D

Question 14: It is essential to provide high school students with adequate career orientation, so they can do more informed decisions about their future major.

- A B C D

Question 15: The last train will leave for the city center at 7:30 p.m. We have 20 more minutes.

- A B C D

Question 16: You should blame yourself for having achieved such a high score in the graduation exam.

- A B C D

Read the following passage, and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 17 to 21.

Culture shock or adjustment occurs when someone is cut off from regular surroundings and culture after moving or traveling to a new environment. Culture shock can lead to a burst of emotions, including excitement, anxiety, confusion, and uncertainty.

Although it may have a seemingly negative implication, culture shock is a normal experience that many people go through when moving or traveling. While it can be challenging, those who can resolve their feelings and adjust to their new environment often overcome culture shock. As a result, cultural adjustment can lead to personal growth and a favorable experience. For example, international students that have come to the United States for a study abroad semester can experience culture shock. Language barriers and unfamiliar customs can make it challenging to adjust, leading some students to feel angry and anxious.

As a result, students can withdraw from social activities and experience minor health problems such as trouble sleeping. Over time, students become more familiar with their new surroundings as they make new friends and learn social cues. The result can lead to growth and a new appreciation of the culture for the study abroad student as well as the friends from the host country as both learn about each other's culture.

Culture shock is typically divided into four stages: the honeymoon, frustration, adaptation, and acceptance stage. These periods are characterized by feelings of excitement, anger, homesickness, adjustment, and acceptance. Note that some people might not go through all four phases and might not reach the acceptance phase. They might experience difficulties adjusting, which could create permanent introversion or other forms of social and behavioral reactions.

If you've travelled abroad for a while or moved overseas, you may have experienced a **bout** of culture shock. Things that people in other places take for granted or habits and customs that they practice may be so foreign to you that they "shock" your system. While this could put an initial damper on your international travels, remember that culture shock can be soon overcome by being open-minded and accustomed to the way things are done that differ from back home.
