 4. A. conical    B. different    C. symbolic    D. careful

#### II. READING:

**A. Reading the passage and choose the best answer:**

A rather surprising geographical feature of Antarctica is that a huge freshwater lake, one of the world's largest and deepest, lies **hidden** there under four kilometers of ice. Now known as Lake Vostok, this huge body of water is located under the ice block that comprises Antarctica. The lake is able to exist in its unfrozen state beneath this block of ice because its waters are warmed by geothermal heat from the earth's core. The thick glacier above Lake Vostok actually insulates it from the frigid temperatures on the surface.

The lake was first discovered in the 1970s while a research team was conducting an aerial survey of the area. Radio waves from the survey equipment penetrated the ice and revealed a body of water of indeterminate size. It was not until much more recently that data collected by satellite made scientists aware of the tremendous size of the lake; the satellite-borne radar detected an extremely flat region where the ice remains level because it is floating on the water of the lake.

The discovery of such a huge freshwater lake trapped under Antarctica is of interest to the scientific community because of the potential that the lake contains ancient microbes that have survived for thousands of years, unaffected by factors such as nuclear fallout and elevated ultraviolet light that have affected organisms in more exposed areas. The downside of the discovery, however, lies in the difficulty of conducting research on the lake in such a harsh climate and in the problems associated with obtaining uncontaminated samples from the lake without actually exposing the lake to contamination. Scientists are looking for possible ways to accomplish this.

5. The word "**hidden**" in paragraph 1 is closest in meaning to \_\_\_\_.

- A. undrinkable    B. untouched    C. unexploitable    D. undiscovered

6. What is true of Lake Vostok?

- A. It is completely frozen.    B. It is saltwater lake.

C. It is beneath a thick slab of ice.

D. It is heated by the sun.

7. Lake Vostok is potentially important to scientists because \_\_\_\_.

A. can be studied using radio waves

B. may contain uncontaminated microbes

C. may have elevated levels of ultraviolet light

D. has already been contaminated

8. The purpose of the passage is to \_\_\_\_.

A. explain how Lake Vostok was discovered

B. provide satellite data concerning Antarctica

C. discuss future plans for Lake Vostok

D. present an unexpected aspect of Antarctica's geography

**B. Reading the following passage and choose the word that best fits each space:**

### HOI AN ANCIENT TOWN

Arriving in Hoi An around 9 p.m, I was really relieved when I discovered that the (9) \_\_\_\_ town was peacefully quiet, something I am really concerned is that Hoi An at night may become crazy club scenes. In the next morning, I woke up very early, and walked around the town admiring waterfront areas where local fishermen were ready to go out for day fishing, the very lively market and extremely ring and empty streets. Since there was no tourist, only locals then and the souvenir shops were still close, I felt that Hoi An at that moment was an extremely gorgeous place to visit.

The yellowish Chinese styled houses along the street together with decorative bushes of bougainvillea flower are lovely sights and very photogenic. The layout of houses was claimed to be unique for not strictly complied with Feng Shui but for benefit of better ventilation in tropical region. Another thing that I am really (10) \_\_\_\_ is the preservation of the whole town which is very amazing and very authentic, which is a thing that cannot be found in Melaka, Singapore or Macao. The Japanese Bridge is maybe the only sight that I found very interesting for its stories that the Japanese built this bridge in order to calm evil serpent spirit "Namazu" that caused earthquake in very faraway Japan since they believe Hoi An is located on the back of the serpent. I strangely found that there are still many nice temples, especially the one dedicate to Confucius which has more unique and interesting Vietnamese elements more than the preserved one in the core zone.

I also noted that Hoi An is not only popular with European tourists but also Korean, Japanese, Australian and New Zealander. After sunset, the whole town waterfront becomes a night market with many local foods. And at that time Hoi An is very charming with hundreds of paper and (11) \_\_\_\_ lanterns. Hoi An at night seems to be a very popular place for pre-wedding photo shooting, as I saw many Vietnamese couples in their traditional dresses with their photographer teams everywhere especially around the Japanese Bridge, so a great place to see local contemporary wedding cultures.

All in all, I really enjoyed my time in Hoi An for its lovely (12) \_\_\_\_ nice townscape.
