DEMYSTIFYING AI: UNDERSTANDING THE BASICS

Curious about Artificial Intelligence? Feel like it's all a bit too sci-fi? This introductory session will break down the fundamentals of AI in a clear and engaging way. Learn how this transformative (13) _____ is shaping our world.

We'll explore (14) _____ key concepts, including:

* What exactly *is* AI? We'll clear up common misconceptions and define the different types of AI.

* How does AI learn? (15) _____ the magic behind machine learning and how algorithms allow computers to learn from (16) _____ data.

* Real-world applications: Explore how AI is already impacting (17) _____ our lives, from healthcare and finance to entertainment and transportation.

* The future of AI: Discuss the potential benefits and challenges of this rapidly evolving field, and what it could mean for (18) _____.

Join us to unlock the mysteries of AI and gain a foundational understanding of this exciting technology!

13. A. technician B. technological C. technology D. technique

THE RISE OF ARTIFICIAL INTELLIGENCE: FRIEND OR FOE?

AI is rapidly transforming our world. From self-driving cars to virtual assistants, its impact is undeniable. But what does the future hold? Join us for an engaging discussion about the rise of this powerful technology.

We'll explore how AI is changing (19) _____ like healthcare and finance, automating tasks and even making life-or-death decisions. But what are the ethical implications? How do we ensure AI remains a tool for good, and doesn't (20) _____ into something we can't control?

We'll investigate (21) _____ complex questions and more. We'll examine the potential benefits, like personalized medicine and increased efficiency, as well as the risks, such as job displacement and algorithmic bias. The discussion will cover a (22) _____ of different perspectives on the future of AI. We encourage you to (23) _____ and share your thoughts.

This is your chance to learn about (24) _____ AI on our future and be part of the conversation. Don't miss out!

IV. Read the following passage and mark the letter A, B, C, or D to indicate the best answer to each of the following questions.

Passage 1

In recent years, technology has played a crucial role in improving communities around the world. From mobile apps to advanced tools, inventions are helping solve problems and create opportunities for better living conditions. One of the most significant impacts of technology is in the field of education. Online learning platforms allow people in **remote** areas to access high-quality education. For example, children in rural villages can attend virtual classes through affordable internet connections, giving them **opportunities** to learn and grow.

Another area where technology is transforming communities is healthcare. Wearable devices, such as fitness trackers, are helping people monitor their health and adopt better lifestyles. Telemedicine, where patients consult doctors online, has become a lifeline for those living far from medical facilities. These **innovations** ensure that people, regardless of location, have access to necessary resources.

In addition to education and healthcare, technology has also improved how people interact with their communities. Social media platforms and online forums have become spaces for people to share ideas and organize projects. For instance, crowdfunding websites allow individuals to raise funds for causes such as building clean water systems or supporting small businesses. These inventions have made it easier for communities to come together and solve their problems.

Although technology has its challenges, such as the need for internet access and training, its potential to create a better community is undeniable. **Technology can serve as a tool to empower people, allowing them to solve problems and improve their quality of life.** By promoting communication, improving access to resources, and enabling collaboration, technology can make a lasting difference in people's lives.

1. Which of the following is NOT an example of how technology helps communities?
A. Virtual classes B. Fitness trackers C. Traditional farming D. Telemedicine
2. The word **remote** in paragraph 1 is OPPOSITE in meaning to:
A. Distant B. Nearby C. Crowded D. Modern
3. The word **its** in paragraph 4 refers to:
A. Communities B. Technology C. Internet access D. Training
4. What is the best replacement for **opportunities** in paragraph 2?
A. chances B. problems C. causes D. solutions
5. Which of the following best paraphrases the **underlined sentence** in paragraph 4?
A. Technology is the only way to solve problems in communities.
B. Technology can help individuals find solutions and enhance their lives.
C. Communities rely entirely on technology to improve their quality of life.
D. Technology should be used as a last resort to address community challenges.
6. Which of the following is TRUE about technology according to the passage?
A. It benefits only urban areas. B. It solves all problems instantly.
C. It requires internet access and training. D. It focuses only on education.
7. In which paragraph does the author discuss healthcare improvements?
A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4
8. In which paragraph does the author mention social media's role in helping communities?
A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4

Passage 2

Inventions have always been essential for human progress, and they continue to improve lives in modern communities. One example is the invention of solar panels, which have made clean energy more accessible and affordable. By using sunlight to generate electricity, communities in remote areas without power grids can now have lighting and run basic appliances. This invention has also reduced reliance on harmful fossil fuels, contributing to environmental protection.

Another revolutionary invention is **portable** water filters. Many communities face challenges with access to clean drinking water. With portable water filters, people can turn unsafe water into safe drinking water instantly. This has significantly reduced waterborne diseases in rural and disadvantaged areas, improving overall health and well-being.

In addition to solving basic needs, inventions like drones are helping in areas such as agriculture. Farmers use drones to monitor their fields, check crop health, and spray fertilizers more efficiently.

Modern inventions like drones provide an alternative way to improve farming practices, reducing time and effort. This not only saves time but also ensures **economical** farming practices.

Lastly, modern communication tools like smartphones and messaging apps allow people to stay connected, even in the most remote locations. **These tools** are used to coordinate disaster relief, organize volunteer programs, and share important information quickly. With such tools, communities are becoming more informed and united in solving common problems. While some inventions may be costly or require training, their long-term benefits for communities are undeniable. They provide hope and opportunities for a better future.

9. Which of the following is NOT an example of an invention mentioned in the passage?

- A. Solar panels B. Portable water filters C. Public transportation D. Drones

10. The word **economical** in paragraph 3 is OPPOSITE in meaning to:

- A. Expensive B. Efficient C. Affordable D. Practical

11. What does **these tools** in paragraph 4 refer to?

- A. Communication tools B. Drones and filters
C. Solar panels D. Disaster relief programs

12. The word **portable** in paragraph 2 could be replaced with:

- A. Heavy B. Movable C. Expensive D. Permanent

13. Which of the following best paraphrases the **underlined sentence** in paragraph 3?

- A. Farming practices can only improve with modern inventions like drones.

- B. Drones are the only way to improve farming practices.
 - C. Drones could be another option to improve farming practices.
 - D. Drones are not a practical way to improve farming practices.
14. Which of the following is TRUE about portable water filters?
- A. They are mainly used in urban areas.
 - B. They remove harmful substances from water.
 - C. They do not require maintenance.
 - D. They are only available in hospitals.
15. In which paragraph does the author discuss drones in agriculture?
- A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4
16. In which paragraph does the author highlight the role of communication tools?
- A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4

The end
