Rock began in the USA in the early 1950s. At that time 'rhythm and blues' music was very (14) \_\_\_\_\_ with black Americans. 'R&B' was a mixture of black religious music and jazz. It had strong rhythms that you could dance to and simple, fast music.

Noticing the success of R&B music, white musicians started to copy the same style. By the mid-1950s, this new white R&B music, called 'rock 'n' roll' had become very popular. Singers like Elvis Presley and Bill Haley (15) \_\_\_\_\_ millions of teenage fans. Their music was fast and loud. Many older people thought that rock 'n' roll was very dangerous.

By the early 1960s, even rock 'n' roll had become old-fashioned. (16) \_\_\_\_\_ the songs had begun to sound the same. It was at that time that a new group from England became popular: The Beatles.

The Beatles first started by singing American style songs, (17) \_\_\_\_\_ they soon developed their own style, with more complicated melodies. They also introduced different instruments, such as the Indian sitar. Groups like The Beatles had a very important influence on the style of popular music. By the early 1970s, rock 'n' roll had developed into a new form of music. Electronics had replaced the amplified guitars and drums of rock 'n' roll. Rock had arrived.

Michael Joseph Jackson (August 29, 1958 - June 25, 2009), or Michael Jackson, is an American singer, songwriter, and dancer, who is the most successful music artist of all time. He is referred to as the King of Pop, the “Emperor of Pop”, the “King of Music”, or just “The King”, and is extremely considerate as the most influential and most famous musician of the 20th century, widely regarded as one of the most well-known people in history. He was the best-selling pop music artist even in the year of his death. His contributions to music, dance, and fashion for over five decades, along with his publicized personal life, made him a global figure in popular culture.

Jackson started performing with his older brothers Jackie, Tito, Jermaine, and Marlon in The Jackson 5 in 1964. In 1971, he started a solo career while also being a member of The Jackson 5. He made the highest-selling album of all time, *Thriller* in 1982, with estimated sales of 66 million copies worldwide. The video for *Thriller* showed him dancing like a zombie and other dancers around him were zombies as well. “*Thriller*”, which includes famous songs like “Beat It” and “Billie Jean” has sold 110 million copies worldwide. The popularity of these videos helped bring the television channel MTV to fame. Jackson wrote other well-known songs such as “Bad”, “Black or White”, “Heal the World”, and “Earth Song”. Through music videos and live performances, he is known for popularizing dance moves such as the robot and the moonwalk. He won a lot of awards and broke many records. Guinness World Records says he is the most successful entertainer of all time. Jackson is also remembered for giving money to charities and pioneering efforts in charitable fund raising in the entertainment industry. Jackson traveled the world attending events honoring his humanitarianism, and in 2000, the Guinness World Records recognized him for supporting 39 charities, more than any other entertainer.

**Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the questions.**

Projects Abroad Vietnam is a Non-Governmental Organization. Its main placements mainly focus on providing care for children with disabilities, and its main partners include Hanoi Friendship Village, Hope Center, Phuc Tue Center for intellectual disabled children, etc.

Standards of cleanliness and sanitation in care centres can often be quite poor. Many of the children that attend daycare facilities also come from low-income families where this isn't a priority. This means that the spread of infections and sickness is common. We educate and run activities to promote proper hygiene, with the aim of improving overall health in these care centres.

We aim to promote a lifestyle of proper nutrition, exercise and medical care and life skill education targeting healthy behaviour. Our health education programme also includes gender education. Volunteers are encouraged to include physical activities in their daily routines, promoting healthy foods as well as good hygiene practices.

It has been shown that a lack of stimulation in early years, particularly in situations of poverty or neglect, can lead to delayed development later in life. With that in mind, we aim to improve the emotional and cognitive development of the children we work with through regular games, activities and interaction with our volunteers, while taking care to include and offer the same level of attention to each child.

In Viet Nam, there are very limited resources made available for people with disabilities. Those with disabilities can be marginalized and have severely restricted opportunities when it comes to finding work. This has a huge impact on their quality of life. By providing individualized care and attention, we can give more specialized and worthwhile treatment to those who are most in need.

**Read the following passage and mark the letter A, B, C or D on your answer sheet to choose the word or phrase that best fits each other numbered blanks.**

An invention is a (14) \_\_\_\_\_ thing that someone has made. The computer was an invention how it was first made. We say when it was "invented". New things that are made or created are called inventions. Cars and plastics are inventions that everyone knows. Inventions are made by (15) \_\_\_\_\_.

Some inventions can be patented. A patent legally protects the (16) \_\_\_\_\_ property rights of the inventor and legally recognizes that a claimed invention is actually an invention. Invention is also an important component of artistic and design creativity. Inventions often extend the boundaries of human knowledge, experience or capacity.

Ideas are also called inventions. Writers can invent characters, and then invent a story about them. Over time, humans have invented objects which make life easier for themselves. (17) \_\_\_\_\_ this, a quote "necessity is the mother of invention", was written.

**Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the questions.**

There are thousands of other inventions that have contributed to the lives of humans across **millennia**. Many of these inventions have even benefited animals and other living species. The reason behind every invention is the need for it.

The main quality of an inventor is his or her ability to see what others are able to see. While most of us see a blue sky, some are able to see the patterns not in the sky which leads them to investigate more. Another important quality of an inventor is his or her desire to find a solution to a problem. They keep abreast with the difficulties faced by human beings and focus on resolving **them**.

Many of the inventors we have mentioned above were not recognized by their teachers nor their peers. They often had eccentric personalities and maintained unusual routines. For example, Albert Einstein was not comfortable with the teaching methods in his school and preferred to teach himself complex subjects such as mathematics and algebra. He dressed eccentrically and kept an unusual hairstyle and was often ridiculed for his views. However, his uniqueness is what led him to change the way we approach the philosophy of science and brought about the ground-breaking theory of relativity.

Inventions are any new discoveries that change the way we view our world. They can occur in art, sciences, tools, machines, society, and even thoughts. Any process, composition, device, or method that expands the limits of human knowledge, creativity, experience, or capability is called an invention and can be brought about by any human who dares to think out of
