

UNIT 6. HEALTH

Lesson: 6 H. Writing

Exercise 1: Use the “Key Phrases” to complete following sentences:

Key Phrases:

1. The aim of this report is to ...
2. The report is based on / draws on ...
3. It would seem that ...
4. According to ...
5. It was reported that ...
6. (People) were of the opinion that ...
7. To sum up, ...
8. On balance ...
9. In conclusion ...
10. Taking all the points into consideration, ...
11. It is recommended that ...
12. I would suggest ...
13. In my opinion, it would be worth ...

1. • _____ evaluate the effectiveness of the new study program.
2. • _____ data collected from student surveys and teacher interviews.
3. • _____ most students find the new study program beneficial.
4. • _____ the principal, the program has already shown positive results.
5. • _____ some teachers, there are still areas that need improvement.
6. • Many parents _____ the program should include more extracurricular activities.
7. • _____ the new study program has received mixed reviews.
8. • _____ the positive feedback outweighs the negative comments.
9. • _____ the program should be continued with some modifications.
10. • _____ the feedback from all parties, the program has been largely successful.
11. • _____ the school continues to monitor and adjust the program as needed.
12. • _____ conducting regular reviews to ensure its effectiveness.
13. • _____ considering the implementation of similar programs in other schools.

Exercise 2: Read the task below. Use Key Phrases in Exercise 1, write your report.

You are a student council member at your school. Recently, there has been a debate about whether the school should implement a new dress code policy. The principal has asked you to write a report summarizing the opinions of the students and providing recommendations based on your findings.

SAMPLE REPORT

{Title} Report on the Implementation of a New Dress Code Policy

{Introduction} The aim of this report is to evaluate the opinions of the students regarding the proposed dress code policy. The report is based on a survey conducted among 200 students from different grades.

{Reporting Views} It would seem that the majority of students are concerned about the restrictive nature of the new dress code. According to the survey results, 65% of the students believe that the new policy limits their freedom of expression. It was reported that some students feel the current dress code is already sufficient. Many students were of the opinion that the new policy would not significantly improve the school environment.

{Summing Up} To sum up, there are mixed feelings about the new dress code policy. On balance, the students' concerns about freedom of expression and the necessity of the new policy must be carefully considered. In conclusion, while the aim of the policy is to create a more focused academic environment, it is essential to take into account the students' perspectives.

{Recommendations} Taking all the points into consideration, it is recommended that the school administration re-evaluates the necessity of the new dress code policy. I would suggest conducting further discussions with both students and parents to reach a consensus. In my opinion, it would be worth exploring alternative ways to achieve the policy's goals without limiting students' freedom of expression.
