*Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions from 31 to 35.*

Although most universities in the United States are on a semester system, which offers classes in the fall and spring, some schools observe a quarter system comprised of fall, winter, spring, and summer quarters. The academic year, September to June, is divided into three quarters of eleven weeks each beginning in September, January, and March: the summer quarter, June to August, is composed of shorter sessions of vary length.

There are several advantages and disadvantages to the quarter system. On the plus side, students who wish to complete their degrees in less than the **customary** four years may take advantage of the opportunity to study year round by enrolling in all four quarters. In addition, although most students begin their programs in the fall quarter, they may enter at the beginning of any other quarters. Finally, since the physical facilities are kept in operation year round, the resources are used effectively to serve the greatest number of students. But there are several disadvantages as well. Many faculties complain that eleven-week term is simply not enough for them to cover the material required by most college coursed. Students also find it difficult to complete the assignments in such a short period of time.

In order to combine the advantages of the quarter system with those of the semester system some colleges and universities have instituted a three-term trimester system. In fourteen weeks, faculty and students have more time to cover material and finish course requirements, but the additional term provides options for admission during the year and accelerates the degree programs for those students who wish to graduate early.

**Question 31:** Which of the following would be the best title for this passage?

- A. The Semester System                      B. The Academic Year  
C. Universities in the United States                      D. The Quarter System

**Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions from 36 to 40.**

Upon the creation of the United States, one of the core concepts on which the hopes for the new democracy were pinned was the ideal that its citizens would be **enlightened individuals** with clearly articulated rights and the opportunity for individual achievement and education. It was believed that in a free nation where the power belongs to the people, the commitment to education defines the progress of that democracy and is the catalyst for future progress. This core value has not only stood the test of time but has also grown in importance. In this new Information Era and international economy, education is an increasingly vital commodity, a precursor of potential success and a driving force of change. It is importance to recognize, however, that we approach education today differently than in the past, partly because the kinds of jobs people had didn't require the kind of basic education and specialized training that is often required in the workforce today. In the 1950s, for instance, only 20 percent of American jobs were classified as professional, 20 percent as skilled; and 60 percent as unskilled. Today, our world has changed. The proportion of unskilled jobs has fallen to 20 percent, while jobs now account for at least 60 percent of the workforce. Even more important, almost every job today increasingly requires a combination of academic knowledge and practical skills that require learning throughout a lifetime.

**Question 36:** Education is defined in this passage as a driving force of change because \_\_\_\_\_.

- A. without education, no changes could have happened in American society so far.
- B. the government of the United States wants to drive social changes in their own ways.
- C. education has helped to bring about and orient most changes in the American workforce.
- D. any American citizen who wants to change his driving license must be very well-educated.

**Question 37:** The passage shows the percentage of jobs that require higher training in the US \_\_\_\_\_ between 1950s and now.

- A. has remained the same
- B. has changed dramatically
- C. has been reversed
- D. has changed slightly

**Question 38:** The phrase "**enlightened individuals**" in the first sentence most likely means "people who \_\_\_\_\_"

- A. always appear brilliant-looking in public
- B. have often been well-exposed to light
- C. have acquired an adequate level of education
- D. bring light to anywhere they go

**Question 39:** In order to become a good American citizen today, in the author's point of view, any individual must \_\_\_\_\_.

- A. know well all his/her rights and be ready to grasp his/her opportunity of success in life
- B. study carefully the history of American educational and vocational systems even since their creation
- C. understand thoroughly the combination of academic knowledge and practical skills
- D. move actively forward in the new Information Era and international economy with a prestigious diploma

**Question 40:** Which of the following titles would be best for the passage?

- A. Education and Jobs in the Past and at Present in the United States.
- B. The Significant Role of Education in American Citizens' Careers
- C. Academic Knowledge and Practical Skills in American Professions
- D. Recent Changes of Educational and Vocational Systems in America
