**READING**

**Read the passage and choose the best answer.**

People commonly complain that they never have enough time to accomplish tasks. The hours and minutes seem to slip away before many planned chores get done. According to time management experts, the main reason for this is that most people fail to set priorities about what to do first. They get tied down by trivial, time-consuming matters and never complete the important ones.

One simple solution often used by those at the top is to keep lists of tasks to be accomplished daily. These lists order jobs from most essential to least essential and are checked regularly through the day to access progress. Not only is this an effective Way to manage time, but also it serves to give individuals a much- deserved sense of satisfaction over their achievements. People who do not keep lists often face the end of the work day with uncertainty over the significance of their accomplishments, which over time can contribute to serious problems in mental and physical health.
